

Britain Awake!

Throughout the early twentieth century Britain united to praise Oswald Mosley and the British Union of Fascists. Today the flame has died. The foul stench of Jewish influence and multiculturalism lingers in the air of this beautiful Isle.

All however is not lost: Remember in one third of world battles (and this is a battle) throughout history, the underdog has been victorious. Today the true Brit is the underdog but Fascism shall always prevail over Jewry and Communism.

The Jewish control over Britain is far from an imaginary prospect. BBC, Warner Bros., ABC, AOL, Fox entertainment, Dreamworks Studios, Miramax films, Youtube, London Times, CBS, Spike TV, HBO, cartoon network and boomerang are all Jewish owned media outlets along with many more.

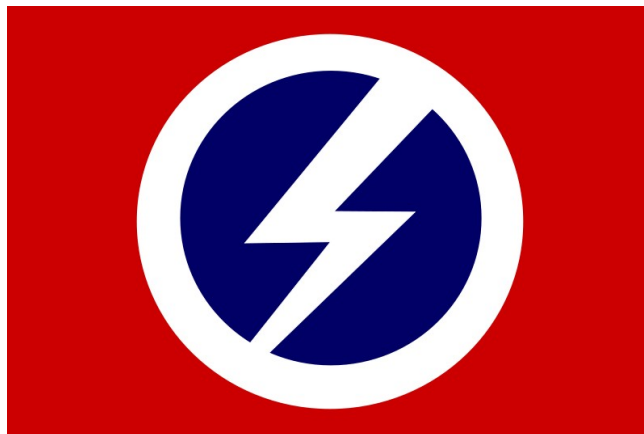

Today we live in a secular society, and rightfully so, yet one religious group can escape this dogma. The Jews. They have been given control of a country in land that doesn't belong to them for the simple reason that "God gave it to them". The reason we live in a secular society is because it is the only way to keep every religious group happy through compromise. Secularism was the basis of the Roman Empire yet Jews live above the laws of men and the result of this Jewish greed is hundreds of Muslims are so outraged at the west for this act they strap bombs on and blow themselves up for Palestine. Whether or not having your home taken justifies terrorism is another matter. The Jews have taken what is not theirs in response to a questionable "holocaust".

Is it not time for the true British people impeach the Jewish creed of greed? The media Jews frequently promote such acts as these: White guilt, drug abuse, racial mixing (genocide), sodomy, abortion (murder) and finally paedophilia. Why do they advocate this? The Talmud, the Jewish "holy" book, says that this is acceptable behaviour. Isn't it time Britain rid itself of this satanic religion?!?

HAIL VICTORY!
